Defence logistics services made easy with GAC

Getting equipment and supplies to the right place at the right time is paramount for military operations.

Operating within an integrated worldwide network, GAC Defence Logistics services is a specialised division of the GAC Group, offering a full range of shipping, marine, supply chain and logistics solutions tailor-made for the military and defence sectors.

Our theatre-specific expertise benefits tactical and strategic military logistics operations in several ways. Besides assisting in war reserve management, we also facilitate sorting, distribution and tracking of supplies into theatre. We even offer IT systems and experienced project managers to control the supply of equipment, if required.

Our solutions encompass complete supply chain services for military forces and other defence agencies including supporting local and non-profit organisations, non-governmental organisations and international private industries.

GAC Defence Logistics services is customer focused, with a flexible and versatile approach to each individual assignment. Our overall flexible and versatile approach, supplemented by our track and trace IT system equipped with an instant updates capability, ensures every shipment is delivered on time and within budget. GAC Defence Logistics focuses on every link within the supply chain. That's how we deliver equipment and supplies to the right place at the right time. Every time.

Maintaining quality and service

GAC Defence Logistics services is a global logistics solution, with an inherent code of ethics, extensive Quality Management System and comprehensive Health and Safety policy.

Our services and operations are supported by a wealth of experienced industry experts around the world, accustomed to local regulations and practices all of whom are focused on minimising costs, optimising resources and meeting deadlines.

GAC has a strong HSSE (Health, Safety, Security & Environment) policy and holds a firm belief that good management of HSSE is essential for the well-being of our customers, suppliers, subcontractors, their cargos and our staff.

The GAC approach to Quality Management goes well beyond the application of standard ISO certification. It involves continuous improvement, training and development of our services. Through our Quality Management System (QMS), GAC can control and monitor our performance and ensure that the highest level of service is provided to our customers.

Our Risk Management policy and practices identify hazards to operations and establish effective control measures to mitigate risk to acceptable levels.

Operational Security (OPSEC) is another integral component of our services. GAC ensures that logistics and shipping information is restricted to those who have both applicable clearances and a need-to-know.
