# GAC Dry Bulk Services

## Global reach, local expertise

### Global network, local expertise

GAC is a global provider of shipping, logistics and marine services. These services are constantly being refined and integrated to serve our customers' increasing need for competitive solutions. Emphasising trust, reliability and a strong human touch, GAC has been building its reputation in its chosen markets since 1956.

Headquartered in Dubai, GAC employs over 9,000 people in more than 300 offices worldwide.

### Comprehensive services

In dry bulk operations, the GAC network seeks to provide the best possible combination of port agency and landside services to meet the needs of companies who control the large scale movement of dry bulk commodities from grain, coal, ores, sugar, cement, steel and fertilisers to minerals and scrap metal.

### Fast and efficient turnaround

Our offices are manned by a strong team of dedicated professionals who are on standby round-the-clock. Customers are always assured of prompt and comprehensive responses to all their requests. In addition, our efficient operations, combined with detailed knowledge of local regulations and practices are geared to minimise costs by reducing time in port and optimising supply chain management.

### Disbursement control

For companies operating a time chartered fleet, GAC also offers effective D/A management services on a global or regional scale, based on our extensive hub agency experience.

### Commitment to Health, Safety, Security and the Environment (HSSE)

The GAC network has a strong policy on HSSE performance and holds a firm belief that good management of HSSE is essential for the well being of our customers, suppliers and all other stakeholders.

### Modern IT capabilities

Through the implementation of custom-built port operations and logistics software, the GAC network ensures that the changing needs of in-port vessels can be accommodated, and cargo can be inventoried, cleared and forwarded, all whilst providing effective reporting for our Principals.

### Communication with Principals

Every enquiry can expect a response within 24 hours either from the Dry Bulk Coordinator, or the Area Marketing Manager, or the GAC network local office directly.
