Complex transportation solutions made easy with GAC

Transporting heavy and oversized cargo for turnkey projects requires highly specialised expertise and equipment - a task daunting to most.

With GAC's global network and solid track record in developing and executing complex project logistics solutions, we are the partner whom you can entrust your load.

From moving massive steel frames to delicate turbine engines, GAC Project Logistics provides the skills and strength that guarantees safe and timely delivery worldwide.

Commitment, experience and efficiency form the essence of GAC Project Logistics. We can manage any sized project from a single domestic delivery to a complex, multi-shipment and multi-modal project.

Today, our project logistics clients come from diverse sectors such as oil & gas, pulp & paper, mining, automotive, construction, power & energy as well as aid cargo.

Whatever the challenge

Going beyond the standard freight forwarding services, GAC Project Logistics provides complete transportation solutions for turnkey projects.

The transportation of project cargoes requires expertise and specialist personnel, supported by innovative thinking and effective technology, which allows you to track your project every step of the way.

GAC provides total logistics capabilities for safe and on-time delivery, to and from the most challenging and remote places in the world.
