Services Include

GAC Laser International Logistics

GAC Laser International Logistics (GAC Laser) is a joint venture between the GAC Group and Laser Logistics, South Africa's leading independent logistics company. The partnership combines GAC's global network with Laser Logistics' local expertise to provide professional logistics services to the South African market.

Global network, local expertise

The combination of over 70 years of local expertise with the worldwide infrastructure and resources of the GAC Group enables us to offer a full range of logistics and supply chain solutions at competitive prices. Our cost efficiency is also ensured through centralised freight purchasing and strong relations with major air and sea carriers.

Specialist in clearing and forwarding

We specialise in facilitating international trade in both air and sea imports and exports to offer a more comprehensive suite of freight forwarding solutions. Our value-added support services include warehousing, transport broking, project management, administration, documentation preparation and risk management of product through customs formalities.

Value-added warehousing operations

With a warehousing capacity of 28,000sqm and access to additional warehouse space, GAC Laser offers value-added packing, palletising, labelling of product and specialised cargo handling.

Track record in serving diverse sectors

GAC Laser serves a broad range of local and international

manufacturers, distributors and retailers in the textiles, timber, aluminium and steel, agricultural products and appliances sectors.

24/7 customer support

With a dedicated team assigned to each account, customers are always assured of prompt assistance for all their needs. Whether it's a request for delivery updates, cargo movement or emergency support, GAC Laser is available round-the-clock.

Flexible solutions

Offering flexibility in a wide range of delivery options, our solutions are tailored to customers' unique requirements. With GAC's global coverage as well as strong carrier and supplier relationships, we promise time-definite deliveries wherever the destination.

Modern IT capabilities

Our advanced IT systems play a key role in providing customers with visibility of their cargo at every step of the supply chain. In addition to monitoring cargo movement, our systems are able to generate management reports on statistics, inventory flow and key performance indicators.

Compliance to international security standards

GAC Laser exercises due vigilance and diligence to comply with measures to ensure the highest security standards for our customers. Besides being part of a C-TPAT network, we are also compliant with US Customs AMS regulations.
