A streamlined freight management process with a skilled team – at a fraction of current costs!

Outsourcing lets you focus on what you do best

With GAC's innovative *In Partnership* service, the GAC Logistics team stands ready to relieve you of all complicated and time-consuming day-to-day freight management so that you can concentrate on the revenue generating side of your business.

With over 30 years' experience in international freight forwarding, GAC Logistics UK has expert knowledge of all the procedures and paperwork required to ensure timely delivery on each and every occasion.

Use of GAC *In Partnership* simplifies your shipping operation procedures and reduces overhead costs. The service is flexible and we can assume as many of your shipping responsibilities as you would like.

Your customers will also benefit from a single point of communication on all shipping issues with our highly experienced and specialised GAC Logistics team, further increasing the level of their confidence in your services and organisation.

In Partnership working on a daily basis

By using GAC *In Partnership* your data will be seamlessly delivered through the supply chain using specialised software developed and installed by GAC.

The service is convenient and easy to use. Arrangements can be made by fax or email and you can track your shipment's progress every step of the way with daily status reports and weekly summaries.

By utilising GAC's experienced staff you can ensure all your documents are produced and processed quickly, with accuracy, and at minimal cost.

GAC *In Partnership* takes the hassle out of freight management so you can focus on what you do best.
