GAC Greece

Logistics Services

Global network, local expertise

Established over two decades ago as a shipping/liner agent, GAC Greece's logistics operations began with consolidation services for shippers in 1991. As part of the GAC Group, a global shipping and logistics services provider with over 300 offices worldwide, we are able to leverage on the worldwide infrastructure and resources of the Group for our customers' benefit.

Combined with our in-depth local knowledge, GAC Greece today is IATA approved and offers a full range of supply chain solutions to meet any logistics and distribution requirements.

Comprehensive coverage

GAC Greece operates from three offices strategically located in the ports of Piraeus and Thessaloniki, and at Athens airport. From Thessaloniki, we have built up extensive expertise in handling shipments to and from the Balkan countries – Albania, FYROM, Bulgaria, Romania, Former Yugoslavian states, etc – for over 15 years. In addition to our well developed network of contacts with the haulage industry, our logistics capabilities by sea, air and land enable us to provide complete coverage of the country.

Highly competitive rates

With our global bargaining power and strong relationships with the world's major air and sea carriers, cost efficiency is ensured. As such, we are able to pass on the cost savings to our customers.

Track record in serving diverse sectors

GAC Logistics serves a broad range of international manufacturers, distributors and retailers in the consumer goods, textiles, pharmaceuticals, automotive, electronics, and oil & gas sectors. Whether moving chips, textiles, or even hazardous goods, GAC has the requisite experience, skills and resources to deliver on time.

24/7 customer support

With a dedicated team assigned to each account, customers are always assured of prompt assistance for all their needs. Whether it's requests for delivery updates, cargo movement, or emergency support, GAC is available round-the-clock.

Modern IT capabilities

Our advanced IT systems play a key role in providing customers with the visibility of their cargo at every step of the supply chain. In addition to monitoring cargo movement, our systems are able to generate management reports on statistics, inventory flow and key performance indicators. Customers also enjoy the convenience of EDI transfers such as pre-alerts, manifests, etc.

Compliance to international security standards

GAC exercises due vigilance and diligence to comply with measures to ensure the highest security standards for our customers. Besides being part of a C-TPAT network, we are also compliant with US Customs AMS regulation.
