# GAC India

## Logistics Services

Established in 1983, GAC Shipping (India) Pvt. Ltd. has grown steadily to offer a truly one-stop shop for all shipping, logistics and distribution needs. GAC India is headquartered in Cochin, Queen of the Arabian Sea, and operates 24 other fully fledged and ISO 9001:2008 certified offices.

GAC India is focused on delivering logistics solutions across the region with accuracy and flexibility. We ensure the right products reach the right place at the right time.

### Fast and efficient

As part of the GAC Group, an international logistics, shipping and marine services provider with more than 300 offices around the globe and strong relations with leading air and sea carriers, GAC India has a distinctive advantage of controlling the shipment. This enables us to provide better transit time, achieve the fastest means of transportation to any destinations, and offer efficient service to all our customers.

### Global network, local expertise

In the global market where transport options, routing possibilities and storage capacities are almost unlimited, the real skill lies in harnessing and employing these resources in the best way, which is our strength. Our operations are supported 24/7 by a highly developed global network linked by proven operating systems and processes. Our extensive worldwide network complemented by strong local expertise and market knowledge in India is one of our unique strengths.

### Multimodal capabilities

In addition to our capabilities in international and domestic freight forwarding, GAC India provides secure storage and distribution solutions at our new 20,000 square feet logistics facility at Bhiwandi. Strategically located close to the main Mumbai-Nashik highway, the fully equipped warehouse has clear access to the entire West India region.

Services include specialised warehousing and distribution services for fast moving consumer goods (FMCG), pharmaceuticals, electronics, automobile parts, IT and related market sectors. For commodities that require special ambient conditions, temperature-controlled zones can also be provided.

### Proven skills in handling challenging projects

From single shipment of sensitive artifacts to multiple shipments of huge turnkey projects, we have mastered the art of handling logistics business. With over 50 years of experience, GAC Group has synergised multiple skills and minds of its people worldwide to deliver the promised time to its customers.

### Value added to our customers

At GAC, we believe in adding value to your business. By the nature of our specialisation, we bring extensive world-class resources to meet the needs of our customers. We offer access to new technology, tools and techniques; more structured methodologies, procedures and documentation; and a competitive advantage through expanded skills.
