GAC Jordan Logistics Services

Global network, local expertise

Established since 1985, GAC Jordan is part of the GAC Group – a leading global provider of shipping, logistics, marine and related services with over 300 offices worldwide.

Combining our in-depth local expertise with the worldwide infrastructure and resources of the Group, we provide a one-stop shop for all supply chain and logistics needs.

Gateway to the regional markets

With our office strategically located at Aqaba port along the Red Sea and Amman in the north, GAC Jordan has been facilitating the efficient movement of goods throughout the country and beyond to neighbouring inland destinations.

In addition, leveraging our integrated Middle East network, we help re-distribute cargo to the Near East and GCC countries. Our transportation fleet – which includes advanced temperature-controlled and dual-compartment units – caters to all kinds of cargo including perishables and temperature sensitive goods.

24/7 customer support

With a dedicated team assigned to each account, customers are always assured of prompt assistance for all their needs. Whether it's request for delivery updates, cargo movement, or emergency support, GAC is available round-the-clock.

Track record in serving diverse sectors

GAC Logistics serves international manufacturers, distributors and retailers in the consumer goods, textiles, pharmaceuticals, automotive, electronics and oil & gas sectors etc. Whether delivering confectioneries, costumes for the catwalk, or even making sure a touring celebrity's instruments and staging arrive on time, GAC has the requisite experience, skills and resources.

Highly competitive rates

Cost efficiency is ensured through centralised freight purchasing and strong relations with major air and sea carriers. As such, our customers benefit from favourable rates as well as priority access to capacity even during peak times.

Modern IT capabilities

Our advanced IT systems play a key role in providing customers with the visibility of their cargo at every step of the supply chain. In addition to monitoring cargo movement, our systems are able to generate management reports on statistics, inventory flow and key performance indicators. Customers also enjoy the convenience of EDI transfers such as pre-alerts, manifest etc.

Compliance to international security standards

GAC Jordan exercises due vigilance and diligence to comply with measures to ensure the highest security standards for our customers. Besides being part of a C-TPAT network, we are also compliant with the US Customs AMS regulation.
