GAC Lebanon Logistics Services

Global network, local expertise

Established since 1967, GAC Lebanon is part of the GAC Group, a global shipping, logistics and marine services provider with an integrated network of close to 300 offices worldwide. Combining nearly 40 years of local expertise with the worldwide infrastructure and resources of the Group, GAC Lebanon provides a one-stop shop for all supply chain and logistics needs.

Gateway to the Middle East

With our head office located in Beirut Port, and backed by branch offices in Tripoli, north of Beirut, as well as Sidon in the south, GAC Lebanon offers comprehensive coverage of the country. In addition, leveraging our integrated network in the Middle East, we facilitate cargo flow from Lebanon to the gulf countries via land transport.

Track record in serving diverse sectors

GAC Logistics serves the worldwide needs of manufacturers, distributors and retailers with particular emphasis on the fast moving consumer goods (FMCG), textiles, pharmaceuticals, automotive parts, electronics, entertainment and oil & gas sectors.

Whether delivering computer parts, costumes for the catwalk, or even making sure a touring celebrity's instruments and staging arrive on time, GAC has the requisite experience, skills and resources.

24/7 customer support

With a dedicated team assigned to each account, customers are always assured of prompt assistance for all their needs. Delivery updates, cargo movement information and emergency support are available at any time of day or night.

Highly competitive rates

Cost efficiency is ensured through centralised freight purchasing and strong relations with major air and sea carriers. As such, our customers benefit from favourable rates – as well as priority access to capacity – even during peak times.

Modern IT capabilities

Our advanced IT systems play a key role in providing customers with the visibility of their cargo at every step of the supply chain. In addition to monitoring cargo movement, our systems are able to generate management reports on statistics, inventory flow and key performance indicators. Customers also enjoy the convenience of EDI transfers such as pre-alerts, manifests, etc.

Compliance to international security standards

GAC exercises due vigilance and diligence to comply with measures to ensure the highest security standards for our customers. Besides being part of a C-TPAT network, we are also compliant with US Customs AMS regulations.
