GAC Pakistan Logistics Services

Established since 1984, GAC Pakistan is part of the GAC group, a global shipping, logistics and marine services provider with more than 300 offices worldwide. Combining local expertise with the worldwide infrastructure and resources of the group, GAC Pakistan is a one-stop solution provider for all supply chain and logistics related business activities.

Air Freight

For fast and efficient transport to and from any city worldwide, choose our air freight service. Our substantial volumes and buying power, combined with strong relationships with the world's premier carriers, enable customers to benefit from favourable rates and gain priority access to capacity even during peak times.

Ocean Freight

GAC Pakistan offers Less than Full Container Load (LCL) and Full Container Load (FCL) shipment options at competitive rates and flexible service levels.

Project Logistics

GAC Pakistan provides solutions for complex logistics tasks. We have the requisite experience, skill and resources to transport heavy, wide or oversized cargo for turnkey projects. We can manage any sized project from a single domestic delivery to a complex, multi-shipment and multi-modal project. Today, our project cargo clients come from diverse sectors such as oil & gas, pulp & paper, mining, automotive, construction, power & energy as well as aid cargo.

Afghan Transit Trade

GAC Pakistan is currently handling the Afghan transit shipments through its business associates.

Custom Clearance

Besides being familiar with customs and authority regulations, GAC Pakistan also ensures that the cargo is custom cleared and delivered promptly.

Compliance to Security Standards

GAC exercises due vigilance and diligence to comply with measures to ensure the highest security standards for our customers. Besides being part of a C-TPAT network, we are also compliant with US Customs AMS regulation. We are registered under Regulated Air Cargo Agent Regime (RCAR).

Modern IT Capabilities

Our advanced IT system plays a key role in providing customers with the visibility of their cargo at every step of the supply chain. In addition to monitoring cargo movement, our systems are able to generate management reports on statistics, inventory flow and key performance indications.
