End-to-end Logistics Solutions

Planning to outsource the entire or part of your supply chain and ensure your finished goods reach your markets spread across Indonesia? Tap into GAC Samudera's multimodal transportation solutions from freight forwarding to third-party warehousing and distribution.

As joint ventures between GAC Group and Samudera Indonesia Group, PT GAC Samudera Logistics (GSL) and PT GAC Samudera Freight Services (GSFS) are recognised leaders in customised supply chain solutions. They serve diverse range of manufacturers, distributors and retailers in the fast moving consumer goods (FMCG), apparels, healthcare and electronic sectors.

Multimodal transportation

Whether it's sea freight, air freight or road transportation, GAC Samudera offers a wide selection of transportation modes that suit your timeline and budget.

Thanks to the size of our global network and centralised freight purchasing, we have global partnership agreements in place with major sea and air carriers. These contracts enable even the most urgent requests to be met quickly at competitive rates.

Security is also a top priority at GAC Samudera. We actively follow developments in this increasingly important area of security. Worldwide, we are compliant with measures such as C-TPAT and AMS to ensure the highest security standards for our customers.

Warehousing and distribution

GAC Samudera operates one of Indonesia's most advanced and modern distribution centre in Cikarang, East Jakarta, enabling companies to outsource their logistics needs with complete confidence.

The flagship facility offers 25,000 sqm of storage space and 35,000 pallet positions in selective racking. In addition to this state of the art facility in Jakarta, GAC Samudera also operates multi-user distribution centers in Medan, North Sumatera and in Surabaya, East Java. From this multi-user logistics platform, we focus on meeting customer needs for safe storage, fast order response and minimum inventory levels throughout Indonesia.

Key design and operational features include:

- Web-enabled IT systems for supply chain visibility and inventory control
- Dedicated cross dock facility
- Temperature controlled storage options for perishables
- Hygiene standards to suit food and sensitive product storage
- Value-added services such as promotional packing, labelling and component assembly

Reliable inventory management with GACWare

GAC uses its in-house warehouse management system GACWare to support its third party logistics operations globally. Acting as an extension to our clients' systems, GACWare plays a vital role in fulfilling your overall distribution and logistics needs by offering relevant information, when, where and how you want it.

Benefits include:

- Web access to detailed information on transactions, inventory status, import and export volume, as well as other statistics
- Reduced lead time with effective interface with clients' systems and 24/7 operations
- Management and key performance indicators report on lead time, orderfills and picking accuracy etc
- Real-time inventory processing made possible by facility-wide scanning
- Assurance of product integrity based on "first expiry, first out" inventory management. Ideal for batch-conscious food, pharmaceutical or other perishable goods

Specialist in shipping, logistics, marine and related services
