GAC Sri Lanka Ship Supply Services

GAC Sri Lanka offers fast and safe delivery of ship supplies and crew changes in the busy sea lanes off southern Sri Lanka and off Colombo. Our fleet of modern high-speed launches operates around the clock, making it easier to manage crew changes, to deliver spares, provisions and mail, as well as to respond to emergency situations.

Multipurpose fleet in strategic locations

Operating from bases in Galle and Colombo, GAC's own fleet of steel hulled, fully air-conditioned crew supply boats is the safest and most comfortable transportation mode. We serve everything from heavy cargo delivery, crew changes to requirements of cargo inspectors, surveyors, or anyone who needs to board a vessel off the coast of Sri Lanka.

Crew support services

Our experienced team of professionals provides a 24-hour "meet and greet" service at Colombo international airport, including prompt immigration and customs assistance, ensuring all arriving and departing crew members receive the best care possible.

Ship spares management

We specialise in deck-to-deck and door-to-deck ship spares delivery, offering a fast and reliable way for spares to reach the vessel. Our integrated logistics services will ensure smooth operation for both planned and emergency deliveries.

Highest safety standards

GAC has an established reputation for safety standards. Our staff carry out regular drills and undergo rigorous training on how to handle any crises, and our boats are fully equipped with emergency and recovery kits to meet international safety codes.

What makes GAC Sri Lanka Ship Supply Services special?

- 24/7 operation
- Cost efficient - no vessel deviation, no port costs involved
- Daily flights to all international destinations
- Simple immigration process
- Fast clearance and delivery of spares, stores and mail
- Steel hulled, fully air-conditioned crew supply boats
- Highest safety standards applied
