GAC Bahrain

Shipping Services

Comprehensive coverage

Established since 1957, GAC Bahrain has developed over half a century of shipping expertise in serving diverse sectors. Today, GAC Bahrain offers a complete range of shipping services for any type of port call at all Bahrain ports and terminals.

GAC Bahrain's ship agency services are available round-the-clock for all vessel calls – tankers, dry bulk carriers, cruise vessels, dry-dock repair vessels etc. Using GAC's own purpose built supply and crew launches, we also offer offshore ship supply services.

Local expertise

With a strong team of experienced shipping professionals, GAC applies extensive local knowledge to meet Principals' varied requirements, ensuring fast and efficient turnaround for vessels in any situation.

Prompt and efficient, we can arrange for clearance and delivery of spares or handle crew changes even with short notice.

Seamless operations

To ensure efficient operations, our communication centre is fully equipped with the latest technology, ensuring our operations staff are contactable round the clock.

Excellent industry contacts

Given our established presence in the Kingdom, we have built excellent relations with both public and private sectors of the shipping industry. These include port authorities, embassies, classification societies, shipping associations, terminal operators, stevedores, shipyard facilities and suppliers.

Advanced IT support

In our efforts to provide seamless services on a global and local basis, GAC offers innovative IT systems which keep owners, operators and charterers informed of the status of their vessel or cargo throughout the port call.

Commitment to Quality

In line with the Group's business philosophy, GAC Bahrain is committed to providing cost efficient and professional services which comply with Health, Safety, Security and Environment (HSSE) practices.

ISO 9002 certified, GAC Bahrain applies high international standards to local services, with all staff committed to continuous quality improvement.
