GAC Lebanon

Shipping Services

GAC Lebanon has been engaged in shipping and logistics services since its establishment in 1967 and is the leading ship and cruise agency in Lebanon. Today, GAC Lebanon offers a comprehensive range of shipping and logistics services to businesses for all their transportation requirements.

Comprehensive coverage

GAC Lebanon provides comprehensive ship and cruise agency services, tailor-made for today's liner and tramp vessels calling at Beirut Port and terminals at Amchit, Chekka, Dora, Ras Selaata, Saida (Sidon), Tripoli, Zahrani and Zouk. GAC also handles berthing, embarkation/disembarkation arrangements and assists in any unforeseen matters that may arise from time to time.

Seamless operations

To ensure efficient and smooth operations, all communications, operations and funding are coordinated via the head office in Beirut Port.

IT strengths and capabilities

To ensure reliable communication and effective reporting for its Principals, GAC Lebanon is continuously updating its IT infrastructure. GACAgent, GAC's own ship agency software, coupled with robust network, firewall and back-up applications, ensures that operations data is captured efficiently. Additionally, mobile communications for ship-side staff help us provide optimum levels of attention and ensure the changing needs of in-port vessels are managed promptly and professionally. GAC Lebanon fully complies with ISPS and other local regulations.

Health, Safety, Security and Environment (HSSE)

GAC Group managers and staff believe that healthy, safe, secure and environmentally sustainable work is essential for the well-being of our employees, customers, suppliers and all other stakeholders who encounter the Group's services. GAC applies best practice in HSSE via a group-wide HSSE policy coupled with quality management systems.

Local expertise

Given our extensive local knowledge combined with strong understanding of Principals' requirements, we can keep owners, operators and charterers informed on their vessel status and of any changes throughout the port call.

Time and cost efficiency

Besides possessing local know-how, we have established close working relationships with the relevant local authorities and the shipping industry to provide prompt turnaround for vessels in any situation.

Advantages

- 24/7 operations
- Professional and experienced team
- Reduced lead time in clearance of final disbursement
- Daily updates and reports for Principals
- Source of reliable market intelligence
