GAC Poland

Shipping Services

Global network, local expertise

Established since 1990, GAC Poland is part of the GAC Group, a global shipping, logistics and marine services provider, with an integrated network of close to 300 offices worldwide.

Comprehensive shipping services

GAC Poland combines in-depth local expertise with the global resources of the Group, to deliver an extensive range of services to owners, operators and charterers.

Renowned for its superior service and efficiency

With fully staffed operations offices at Szczecin, Gdynia, Gdansk and Warsaw, GAC Poland has vast experience in handling all types of ships and cargoes, ensuring quick turnarounds based on well planned discharging/loading operations.

Specific expertise in ship agency

GAC Poland's specific expertise in ship agency for dry dockings and other ship repairs and special relations with the shipbuilding and shiprepairing yards in all Polish ports are a solid guarantee for prompt, efficient and economical attendance to Principals' needs.

Commitment to quality

GAC Poland is proud of its ongoing commitment to deliver the highest quality standards to its Principals and we believe in the importance of feedback from our customers as our route to continuous improvement.

Health, Safety, Security and Environment (HSSE)

GAC Group managers and staff believe that healthy, safe, secure and environmentally sustainable work is essential for the well-being of our employees, customers, suppliers and all other stakeholders who encounter the Group's services. GAC applies best practice in HSSE via a group-wide HSSE policy coupled with quality management systems.

IT strengths and capabilities

To ensure reliable communication and effective reporting for its Principals, GAC Poland is continuously updating its IT infrastructure. GACAgent, GAC's own ship agency software, coupled with robust network, firewall and back-up applications, ensures that operations data is captured efficiently. Additionally, mobile communications for ship-side staff help us provide optimum levels of attention and ensure the changing needs of in-port vessels are managed promptly and professionally.
