

GAC Norway Customs Services

Expert advice on Customs matters in Norway

Whether it is regular cargo movement, bonded shipments, project solutions, or taxable high-risk product supplies, our specialist team provides tailor-made support to meet your exact needs.

Delivering your strategy.

Our in-house Customs Service department specialises in all processes related to cargo movement to, from or through the country's mainland and waters, and work closely with Norwegian Customs authorities to ensure compliance.

Regulations and legislation

GAC Norway provides expert guidance and consultancy support on Customs regulations and requirements for import, export and transit cargoes in Norway.

We are highly experienced in navigating the regulations and procedures for a wide range of operations and projects. That means we have the flexibility to adapt to your needs.

From specialised Customs clearance and consultancy to bunkers and bonded warehousing, trust us to deliver your goods.

Bonded warehousing and setup

GAC provides bonded storage in numerous locations. As well as advice on setting up bonded licences and audits, we can assist with the external procedures required to secure compliance approvals.

Taxes and formalities

Special taxes and related formalities are applied to bunkers, provisions, mineral oil products and emissions. These products have different exemptions, refund possibilities, license and formality demands based on circumstances.

Our Customs team have the expertise and resources to help you navigate those formalities and answer any related questions you may have.

EUR 1 documents

Where applicable, we can help obtain documents and approvals required under the terms of the EEA agreement. GAC's team also offers validation assistance during audits.

Safety and performance

All our operations are in line with the GAC Group's Compliance & Ethics and Health, Safety, Security and Environment (HSSE) policies.
