YOUR DOOR-TO-DECK DELIVERY SERVICE FOR SHIP SPARES & MARINE PARTS

When a vessel needs a spare part in a hurry, it makes a difference to engage an organisation with expertise in both shipping and logistics.

GAC has been delivering the goods for more than half a century. We've combined our skills in logistics, ship agency and marine services to create GAC Marine Logistics (GML), dedicated to meeting the needs of ship owners, managers and spares suppliers for fast, dependable and efficient delivery of marine parts - wherever you go.

At GML, we offer a seamless single-source service - from pickup at the supplier's door to delivery on board ship, or in reverse for return parts. This specialised supply chain management service integrates the Group's global infrastructure and expertise in freight forwarding, warehousing, supply chain management, ship agency, ship supply and marine and offshore support.

And it's flexible. Choose the mode of transport that best matches your requirements: air freight, courier, sea freight or road transportation. We'll help you compare the time and costs, and recommend the mode that works best for you.

Our operations are supported by a network of coordination offices in Dubai, Singapore, London, Piraeus, Rotterdam, Hamburg, Houston and Sao Paulo, as well as consolidation warehouse centres in key countries around the world.

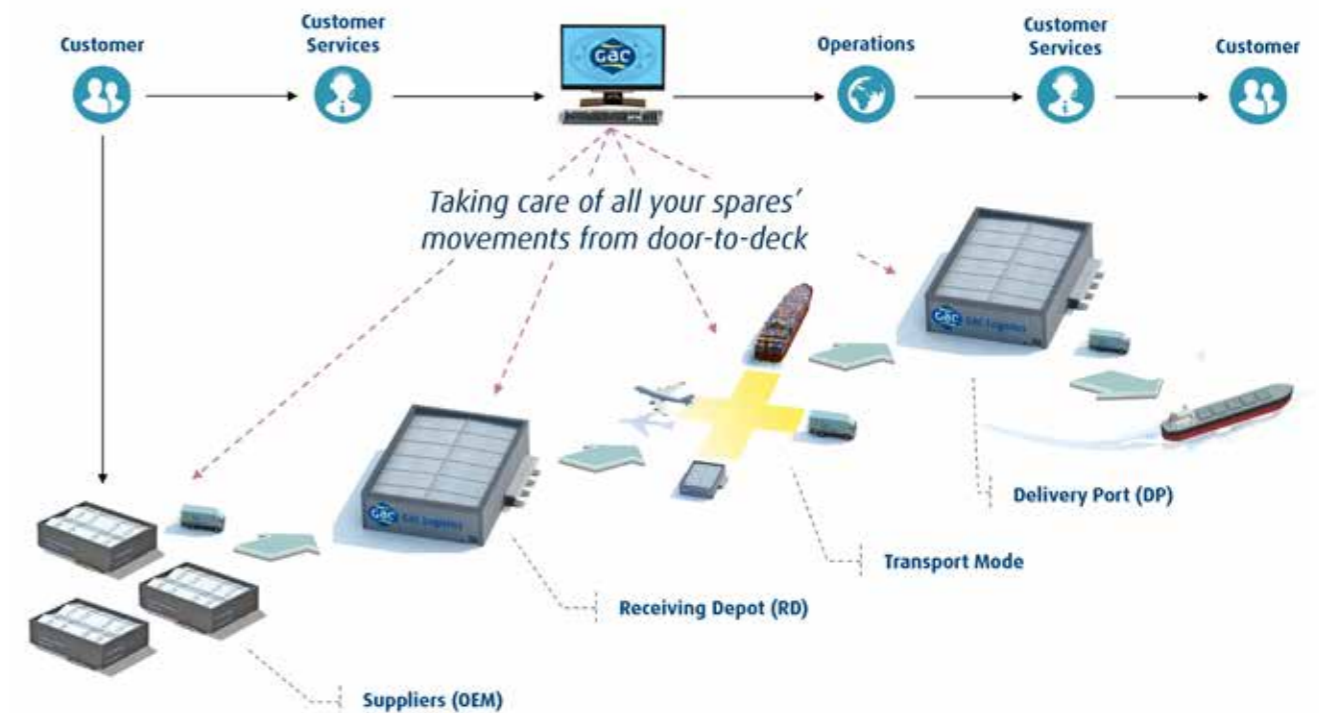

We put the muscle of GAC's global network at your disposal - providing world-class service to and from more than 1,000 locations worldwide.
