

GAC Sri Lanka

Integrated logistics solution for ship spares in transit

Taking care of your ship spares
logistics all the way.

Delivering your strategy.

GAC Sri Lanka operates round-the-clock to provide fast and safe delivery of ship supplies. When a vessel needs a spare part in a hurry, it makes a difference to engage an organisation with expertise in both shipping and logistics.

At GAC Sri Lanka, we offer a seamless single-source service - from pickup at the supplier's door to delivery on board ship, or in reverse for return parts. This specialised supply chain management service integrates the Group's global infrastructure and expertise in freight forwarding, warehousing, supply chain management, ship agency, ship supply and marine and offshore support.

GAC Sri Lanka has been delivering the spares on behalf of our principals for more than two decades. We leverage our experience and expertise in logistics, ship agency and marine services to meet the needs of ship owners, managers and spares suppliers for fast, dependable and efficient delivery of spares in Sri Lanka.

Storage facilities

Storage facilities with 24/7 access

are available at the port of Galle in the southern part of the country. This adds to Sri Lanka's appeal as a location for taking on spares.

Off port limit delivery

With our own fleet of multi-purpose supply boats, GAC Sri Lanka is able to make prompt and cost-effective spares delivery to the deck without the vessels having to divert from their course.

Flexibility

Choose the mode of transport that best matches your requirements: air freight, courier, sea freight or road transportation. We'll help you compare the time and costs, and recommend the mode that works best for you.

We put the muscle of GAC's global network at your disposal - providing world-class service to and from more than 1,000 locations worldwide.

HOW YOU BENEFIT:

- One-stop solution
- Integrated logistics services
- 24/7 operations
- No deviation from vessel's course
- Cost-effective solutions

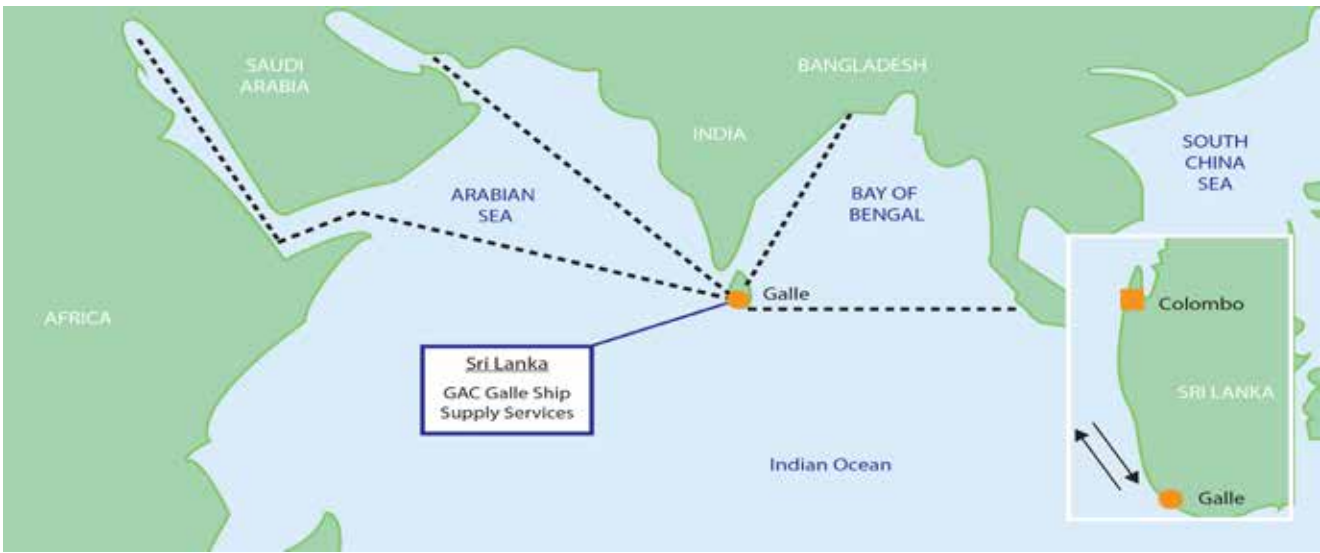

COMMITMENT TOWARDS INTERNATIONAL SAFETY AND COMPLIANCE STANDARDS

Our operations are in full adherence with the Group's strict compliance and ethics procedures – underpinned by the GAC Code of Ethics and Quality, Health, Safety, Security and Environment (HSSE) policies. We also comply with anti-corruption regulations such as US Foreign Corrupt Practices Act (FCPA) and the UK Bribery Act 2010, environment-based and zero incidents policies.

HOW IT WORKS

Proven track record and specialised know-how to meet your spares requirements
